About ALTINEX

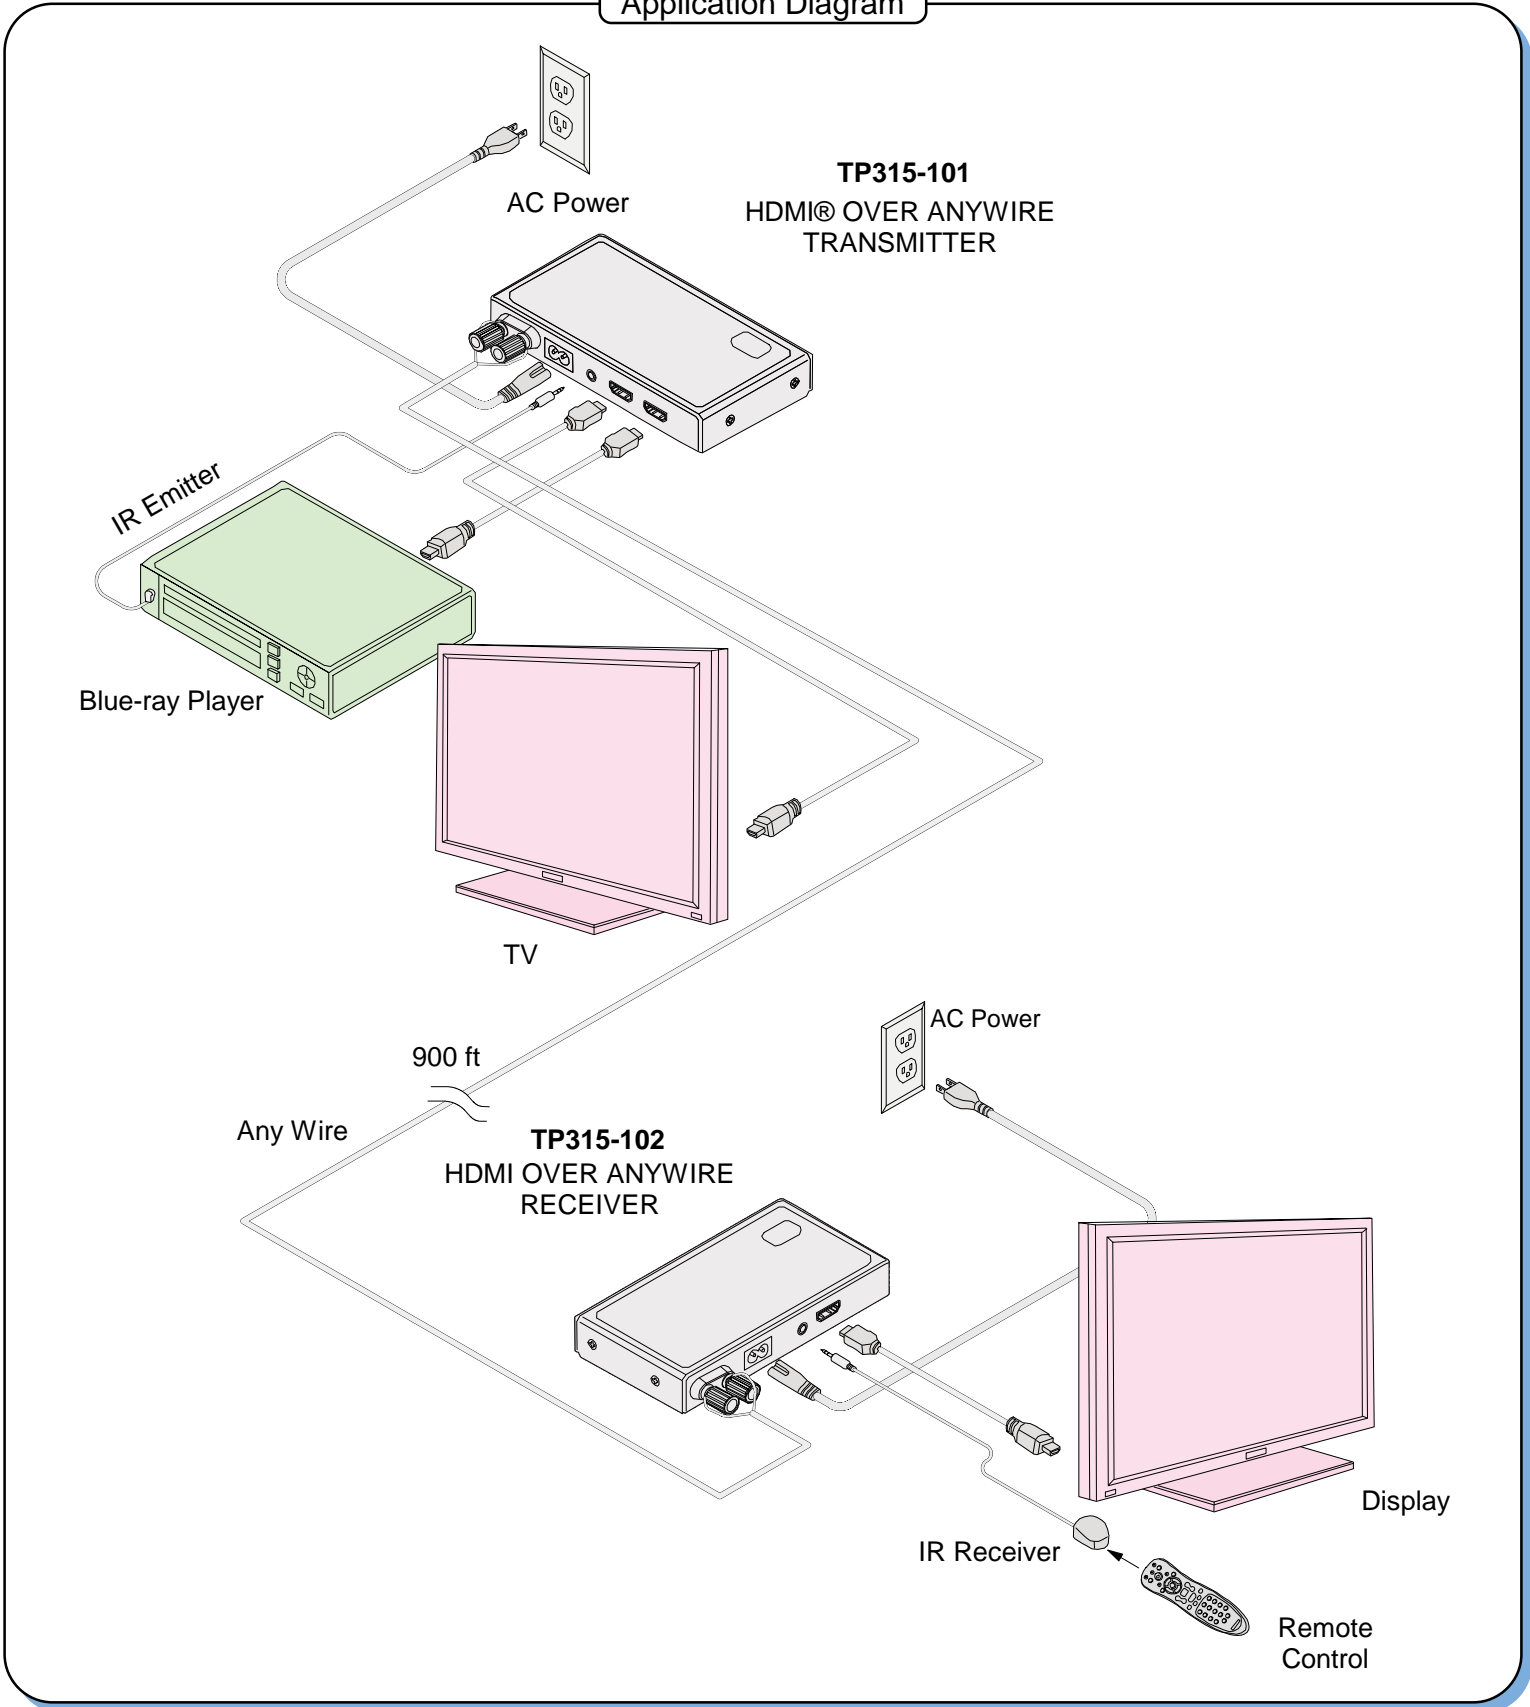

ALTINEX has been the leading, ISO 9001 certified manufacturer of modular audiovisual signal management solutions™ since 1993. We manufacture a complete line of computer video interfaces, distribution amplifiers, switchers, matrix switchers, special application products, cables and related accessories, software, and a large variety of furniture connectivity products.

Signal management solutions are used to handle the routing of computer video, broadcast video, audio, and control signals in presentation systems which can range from a small meeting room to a multi-faceted large boardroom or conference room. The current product line includes a full array of designer solutions, interfaces, distribution amplifiers, switchers, matrix switchers, converters, special application products, cables, and accessories.

Many ALTINEX customers are large system integrators who expect their vendors to adhere to the same strict quality procedures that they follow in their own operations. ALTINEX products are marketed throughout the United States by a network of manufacturers representatives, pro audiovisual dealers, and systems integrators. ALTINEX products are also offered by pro audiovisual distributors in many other countries and regions throughout the world, including Canada, Mexico, South America, Europe, Israel, South Africa, China, Japan, Korea, Malaysia, and Australia. ALTINEX distinguishes itself by offering innovative solutions that deliver high performance and reliability and are Easy to use, Easy to install, and Easy to maintain.

TP315-101

HDMI OVER ANYWIRE TRANSMITTER

Details

HDMI OVER ANY WIRE, TX CARD

Features:

HDMI over 2-conductor cable

Automatic input/receiver detection

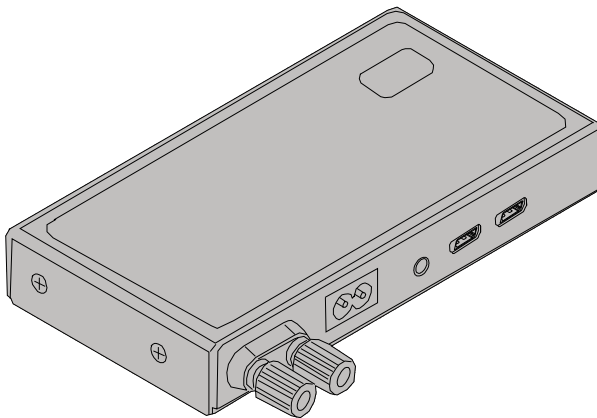

Transmission up to 300 m

IR pass-through control

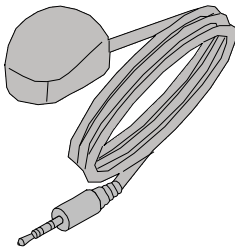

Local monitor output

Signal/Power LEDs

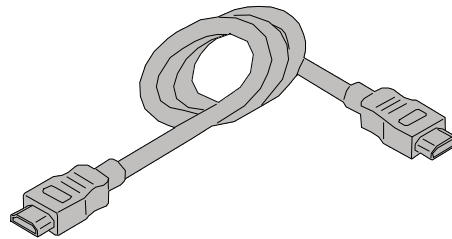

HDMI resolutions 720p, 1080i, and 1080p

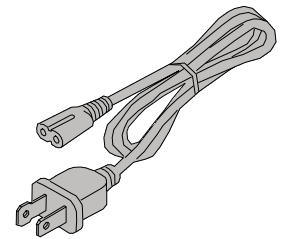

Included in Box

IR Emitter

HDMI Cable

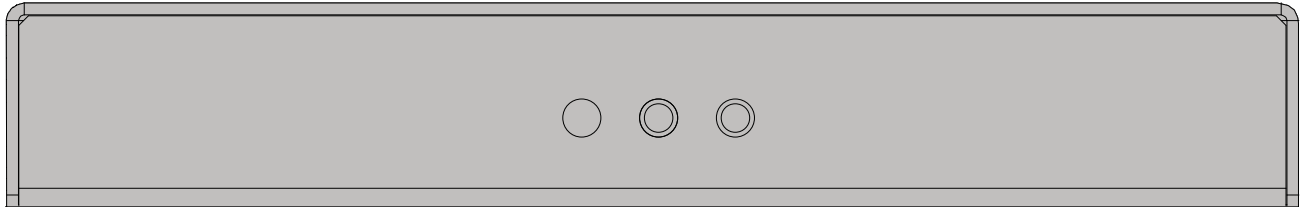

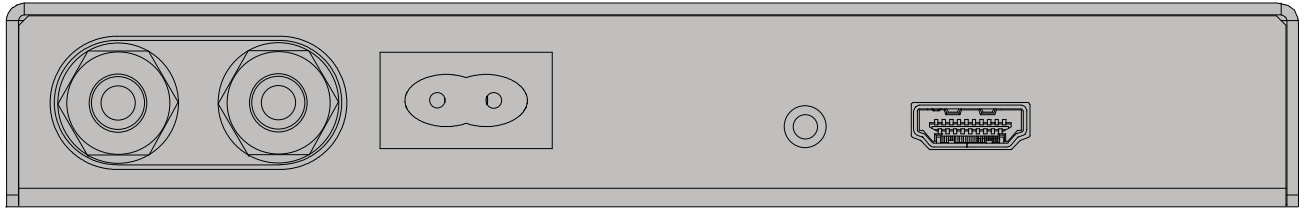

Power Cable

TP315-102

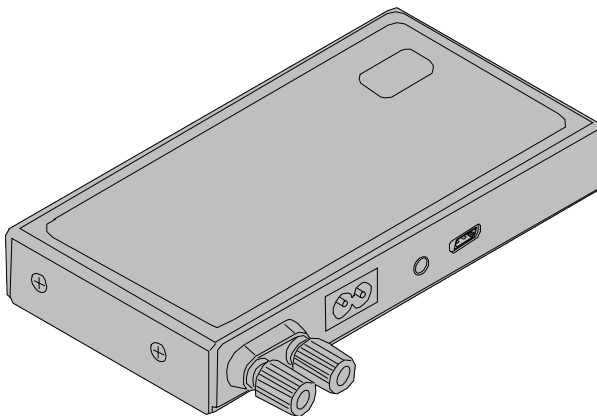

HDMI OVER ANYWIRE RECEIVER

Details

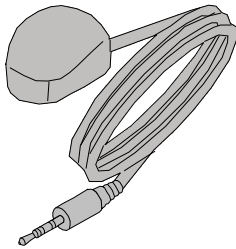

HDMI OVER ANY WIRE, RX CARD

Features:

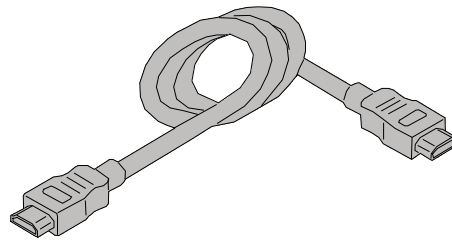

- HDMI over 2-conductor cable
- Automatic input/receiver detection
- Transmission up to 300 m
- IR pass-through control
- Local monitor output
- Signal/Power LEDs
- HDMI resolutions 720p, 1080i, and 1080p

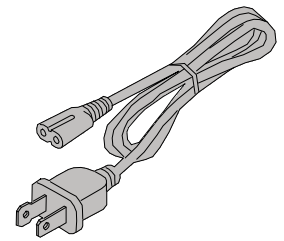

Included in Box

IR Receiver

HDMI Cable

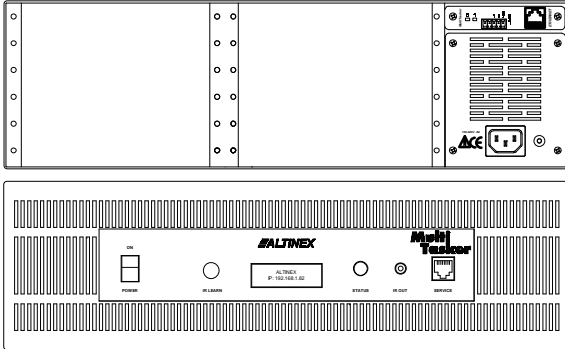

Power Cable

MultiTasker Enclosures

MT302-121

12 SLOT, MULTITASKER

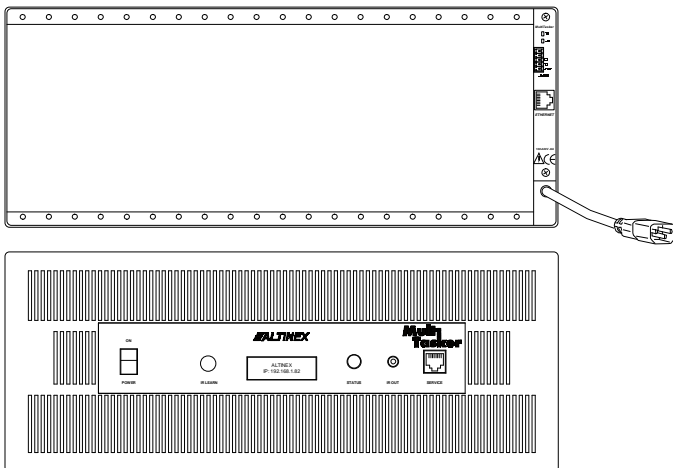

Features:

- RS-232 control
- Ethernet control (1 port on back/1 port on front)
- AC Power 100-240V
- 3U high
- LCD display
- ON/OFF button
- IR receiver/IR blaster
- Rack mount ears (MT399-102)-optional accessory

MT302-201

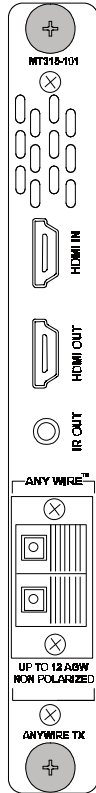

20 SLOTS, MULTITASKER

Features:

- RS-232 control
- Ethernet control (1 port on back/1 port on front)
- AC Power 100-240V
- 4U (7in) high, 19-inch rack
- LCD display
- ON/OFF button
- IR receiver/IR blaster
- Rack mount ears (MT399-101)-optional accessory

MT315-101

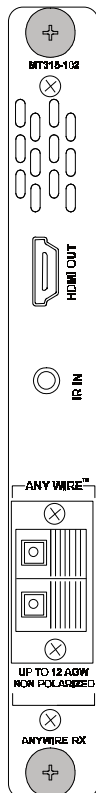

HDMI OVER ANY WIRE, TX CARD

Features:

- HDMI over 2-conductor cable
- Automatic input/receiver detection
- Transmission up to 300 m
- IR pass-through control
- Local monitor output
- Signal/Power LEDs
- HDMI resolutions 720p, 1080i, and 1080p

MT315-102

HDMI OVER ANY WIRE, RX CARD

Features:

- HDMI over 2-conductor cable
- Automatic input/receiver detection
- Transmission up to 300 m
- IR pass-through control
- Local monitor output
- Signal/Power LEDs
- HDMI resolutions 720p, 1080i, and 1080p
